PROFESSIONAL EXPERIENCE

Senior Program Specialist | Hopewell Support Services

May 2019 to Present | Ariss, ON

- Led governance, compliance, and quality transformation for a federally regulated healthcare program, achieving zero audit deficiencies across all annual Public Health Agency of Canada reviews.
- Built the organization's SOP and quality framework from the ground up, driving a 75% reduction in incident frequency and a 67% reduction in error rates within 3 to 6 months.
- Directed cross functional collaboration between clinical, administrative, and regulatory stakeholders to sustain program performance over 6 years.
- Owned risk identification and mitigation strategy, serving as a trusted advisor to leadership on operational and compliance risk.

Team Lead, Inside Sales, CX and Projects | Hall Telecommunications Ltd.

April 2025 to May 2026 | Guelph, ON

- Directed a \$11M multi jurisdictional government technology agreement in Quebec, managing legal, vendor, and executive stakeholder alignment through complex contract negotiation and delivery.
- Led a full enterprise CRM to ERP transformation, owning scope, budget, and organizational change management from planning through go live.
- Owned a concurrent portfolio of 5 to 10 client accounts and technology projects ranging from \$100K to \$8M, balancing financial performance with client satisfaction.
- Used Microsoft Copilot and AI assisted tools daily to accelerate documentation, reporting, and decision making, leading a company wide process modernization initiative.

Inside Sales Representative and Accounts Associate | Hall Telecommunications Ltd.

June 2024 to April 2025 | Guelph, ON

- Promoted to Team Lead within 10 months, recognized for versatility across sales, operations, IT, and warehousing functions.

Project Manager | Probitry Medical Research Inc.

June 2023 to September 2023 | Waterloo, ON

- Directed 15+ concurrent clinical research projects for global pharmaceutical sponsors including Pfizer, Novartis, Janssen, and Sun Pharma, delivering zero missed deliverables across 3 international regulatory jurisdictions.
- Owned investigator site performance and compliance oversight, applying ICH GCP standards throughout the study lifecycle.

Research Assistant | Sunnybrook Research Institute (ISU)

May 2023 to July 2023 | Toronto, ON

- Built a governance and regulatory framework from scratch for a Phase I clinical trial involving an experimental medical device, advancing the initiative through institutional and Health Canada review.
- Managed Trial Master File documentation using Veeva Vault, maintaining inspection readiness and version control throughout the study.

Regulatory Affairs Intern | TADA Consulting Solutions

March 2023 to May 2023 | Toronto, ON

- Produced 25+ regulatory deliverables supporting the successful onboarding of 5 new global pharmaceutical accounts.

PROJECTS

- Personal Finance Management App, AI Assisted Development. Designed and directed development of a functional personal finance tracking application using Claude.
